

CTL NEWS

Certified Testing Labs - Celebrating our 66th Year!

MovingForward / Changes

Due to increase demand please see special notation below...

NYC Local Law 126

Parking garage owners in most of the city still have four years to comply. The rules, part of a larger buildings package passed in 2021 known as Local Law 126, require all of New York City's more than 1,200 parking garages to undergo an inspection by a certified professional by the end of 2027. The requirement is phased in by borough.

Special Notation:

We suggest a 48-72 hour notice of when you'll need us for an inspection.

Although we will do our absolute best to cover last minute requests for any inspection, please give as much notice as possible.

Thank you,
Maureen McLennon, CPA
Chief Operating Officer

CTL is here for all your testing needs.

The Construction Industry is ever-changing, and NYC Building Codes work in tandem with these advances. Our team understands and stays up-to-date with the latest version of the International Code Council (I-Codes) and maintain consistent knowledge of the technical volumes: Building Code, Mechanical Code, and Energy Conservation Code.

CTL is one of the few fully licensed construction testing companies that offers Materials Testing / Special Inspections and Non-Destructive Testing to list a few. We will continue to serve the NYC Metro-area, Eastern Pennsylvania, and New Jersey areas as we have in the past. In addition, we now offer additional services such as Vibration Monitoring, Optical Monitoring, Crack Monitoring, site investigations, design, and engineering consults.
